AI TOOLS & AGENTS

Claude Code	Cursor	Codex
OpenAI API	Anthropic API	
Local LLMs	LangChain	
Agentic Workflows	Prompt Engineering	
RAG Systems		

CORE TECH

Java / Spring Boot	Python
Angular	PostgreSQL Docker
Kubernetes	AWS REST APIs
CI/CD	TDD / Event-Driven

LANGUAGES

Bulgarian	Native
English	Fluent
Russian	Fluent

INTERESTS

Table Tennis	Climbing	Skiing
Chess		

PROFILE

AI-native full-stack engineer with 5+ years building enterprise systems used by millions — and the last year dedicated entirely to mastering autonomous AI development. Proficient with **Claude Code, Cursor & Codex**, I operate as a **5–20x engineer** by pairing deep software fundamentals with agentic workflows. I stepped away from a senior role to go all-in on this transition, and I'm now looking to bring that edge to a team building at the frontier.

EXPERIENCE

AI-Native Engineer AI FOCUS

Jan 2025 – Present

Independent / Freelance — Remote

- Dedicated a full year to mastering **agentic AI engineering** — building and shipping production projects through AI-assisted workflows.
- Developed full-stack applications using **Claude Code, Cursor, and OpenAI Codex** as primary development agents.
- Designed **RAG pipelines** and LLM-powered features via Anthropic and OpenAI APIs; built multi-step agents with LangChain.
- Benchmarked **local LLM deployments** (Ollama / Llama 3) for privacy-sensitive use cases.

Software Developer

Oct 2022 – Dec 2024

Qaiware — Sofia, Bulgaria

- Built and optimised **online payment solutions** for major financial institutions using Java / Spring Boot at scale.
- Led a **local LLM proof-of-concept** for internal documentation search — the company's first AI initiative.
- Improved performance through database optimisation, caching strategies, and internal developer tooling.

Member of Technical Staff

Jul 2020 – Oct 2022

VMware (now Broadcom) — Sofia, Bulgaria

- Contributed to **vRealize (Aria) Automation** — enterprise Kubernetes orchestration used by global Fortune 500 clients.
- Delivered features and performance improvements across distributed microservices; deepened expertise in **Kubernetes, Docker & CI/CD**.

Tech Support

2018

Perfect Plus — VFS Global Visa Centers

- Provided hardware and software support across multicultural environments at VFS Global Visa Centres.

EDUCATION

BSc Informatics

Faculty of Mathematics and Informatics, Sofia University
2017 – 2022

High School of Mathematics

"Dr. Petar Beron", Varna
2012 – 2017

PROJECTS & ACHIEVEMENTS

- ▶ Shipped multiple **AI-powered full-stack applications** during freelance year — end-to-end with agentic coding tools.
- ▶ **Blockchain-based Dynamic Environment for Education** using Hyperledger Composer — decentralised learning platform prototype.
- ▶ **File Archivator using Huffman Coding** in C++ — algorithmic systems programming depth.
- ▶ Awarded **Athlete of the Year 2018** at Sofia University — former National-level table tennis competitor.
